

## April 2018 Newsletter

### Mark your calendars!

Nurse's Day is Saturday, May 12th. Here are some themed party ideas, gifts, and other inspiration to show the nurses in your life how much you appreciate their service.

## Contracts Available

Forget everything you thought you knew about contracts, because FirstMed is reinventing the industry standard. The best part about working with a company like ours is that you get flexibility, but we could do without the cancellations...

To get the best of both worlds, we can submit your availability to our clients to establish a schedule of shifts that cannot be cancelled, without the long-term commitment. To find out more about tailoring a contract to you, or to discuss the ones below, please call our office and ask for Michelle or Hannah.

**Corrections Nurse - RN and LPN**  
Milwaukee County Jail  
House of Corrections

AM and PM shifts available

---

## Employees of the Month

### **Diane Hampton, CNA**

Diane has worked with FirstMed since January 2016 and in that time she has shown a lot of flexibility by picking up shifts with little notice and having a great attitude while doing so. As an experienced CNA, she is an asset to our team!

### **Susie Alatorre, LPN**

Susie started with FirstMed in February of 2018 and has found her niche with the Milwaukee County Jail. She is incredibly loyal and stays committed to her contracted shifts and for that we are very appreciative!

# Reminders

To create a more seamless approach to our business model, please ask to speak with Nicole and Shay for per diem, Michelle and Hannah for contracts, and Candace for payroll.

If you need to cancel a shift for any reason, be sure to call our office number directly at 262-746-6900. If it's after hours, the call will automatically transfer to whomever is on call. DO NOT send an email, a text, or call any of our work cell phones directly.

If you are running late to a shift, it is important to contact our office BEFORE the shift's start time. That way we can notify the facility. Keep in mind that for every tardiness, your loyalty bonus will reset.

Remember that if you accept a shift, you must stay committed to that shift. You may not switch shifts for any reason, or decide you'd rather go to a different facility. Our clients, their staff, patients, and residents rely on us - and you- to be at the shifts you agree to.

*Sincerely,*

*Michelle, Nicole, Shay, Hannah, Myesha & Candace*

The FirstMed Team
